#### **Nuxated Iron Will Increase Strength of Delicate People** In Two Weeks Time

have suffered for years without knowing what made them feel tired, listless and rundown when their real trouble was lack of iron in the blood—how to tell.

If you were to make an actual blood test on all people who are ill you would probably large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied a multitude of dangerous symptoms disappear. Without fron the blood at once loses the power to change food into living tissue and therefore nothing you as symptoms disappear. Without fron the blood at once loses the power to change food into living tissue and therefore nothing you as you asked; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starses wide apart that the mill can't grind. As a result of this continuous blood and nerve stary wation, people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepaia, kidney or liver trouble; some akinny and bloodless, but all lack physakal power and endurance. In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only while the sell day your fagging vital powers for the moment, maybe at the expense of your life later on.
